### Test 11

Read the given text and answer the questions.

Sharks have fins, sharp teeth and they swim in the ocean. They have been around for a very long time. Sharks have lived in the oceans even before dinosaurs roamed the earth! Sharks are fish, and there are over 400 types of sharks. When they have babies, the babies are called pups.

Sharks lose their teeth, throughout their lives. When a shark loses a tooth, a tooth from another row of teeth will move into its place.

Sharks might look scary, but they are not usually dangerous to people. People are more dangerous to sharks, since they hurt sharks. To be safe, though, it is a good idea to leave sharks alone if you see them.

1. Where can we find sharks according to the text?.....
2. How many types of sharks have been recorded? .....
3. Who are pups?.....
4. Say whether the following statements are true ( T ) or false ( F )
  - I. Sharks have sharp teeth and fins. (.....)
