Mid Year Examination 2015 Mathematics

Grade 10

ගණිතය

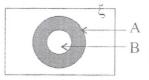

Time: 2.30 hours

Name/ Index No.

Answer all questions.

Paper - I

- O1 A price of 3 mangoes equal to the price of 4 oranges. If the price of 4 oranges is Rs. 60, find the price of a mango.
- 02 Write the shaded area in set notation.

- 03 Write the L.C.M. of the following expression. $2x^2y^2$, $6xy^2$, $3x^2y$
- 04 Write two properties of a parllelogram.

- When Rs. 500 is given at 15% simple interest how much is the interest obtained after year?
- O7 Solve the equation 3x + 5 = 8
- A water tank of 500*l* capacity can be completely filled in 16 minutes and 40 seconds by a pipe. Find the flow rate of the pipe.
- Make u as the subject of the formula $V^2 = u^2 + 2as$

***************************************	***************************************		***************************************	
10	Sim	nlify	X	+ <u>a</u>
		Filly.	x - a	a - x

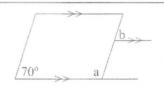

11 If
$$n(\xi) = 74$$
, $n(A) = 45$, $n(B) = 38$ and $n(A \cup B) = 81$ find $n(A \cap B)$.

Write the gradient and the intercept of the line
$$y = 4x - 3$$

- The price of a dozen of exercise books is Rs. x and 5 pens is Rs. y. Write the price of a pen and 5 exercise books in terms of x and y.
- If $y = \frac{3x}{\sqrt{a}}$ find the value of "a" when x = 2 and y = 1.
- 15 If $10^{1.5706} = 37.16$ find the value of antilog 0.5706

17 In the following diagram, find the angles denoted by simple letters a and b.

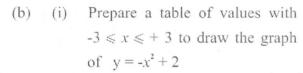

18 If
$$2y - 3x = 4$$
, $3x + 1 = 3$ find the value of y.

- By examining the function $y = x^2 5$ and find the coordinate of the turning point.
- The ratio of the amounts of money P and Q have is 3: 2 and the ratio of the amounts of money Q and R have is 3: 2. Find the ratio of the amount of money P, Q and R have.

 $(2 \times 20 = 40)$

- Answer first question and four other questions. 16 marks in first question and 11 marks in each other questions.
- 01 (a) A graph of an equation of the form y = mx + c is shown in the figure below.
 - (i) What is the value of c?
 - (ii) What is the value of m?
 - (iii) Write the equation of the straight line.

(iii) Using the graph

- 1. Write the equation of the axis of symmetry of the graph.
- 2. Write the coordinate of the turning point.
- 3. Find the maximum or minimum value of the function.
- 4. Find the roots of $-x^2 + 2 = 0$
- Out of 200 grade 11 students in a certain school 160 have passed Mathematics.

 150 have passed Science and 10 have not passed any of the two subjects.
 - (i) Represent the above data in a venn diagram.
 - (ii) Find the number of students
 - 1. who have passed both Mathematics and Science.
 - 2. who have passed only Mathematics.
 - 3. who have passed only Science.
 - (b) If a cycle traveled with a speed of 5ms⁻¹ in the first 10 s and with a 10ms⁻¹ in the next 40 s.

Find the

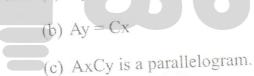

- (i) distance travelled in the first 10 s.
- (ii) distance travelled in the next 40 s.
- (iii) total distance travelled.
- (iv) total time taken.
- (v) average speed.

Simplify using the laws of logarithms and find the value of x. (a) 03

$$\log_2 2 + \log_2 (x + 1) = \log_2 4 + \log_2 3$$

- 2.38 x 75.43 Simplify using the logarithms table. (b)
- Solve the equation. $\frac{x+5}{3} + \frac{x+2}{2} = 11$ (a) 04
 - The sum of two numbers is equal to five times of there difference. Three times (b) the larger number is greater than four times the smaller number by one.
 - Taking the large number as x and smaller number as y and form two equations which include x and y.
 - Solve the equations and find the two numbers. (ii)
 - In the parallelogram ABCD. The bisector of the angle DAB meets DC at y and the 05 bisector of the angle DĈB meets AB at x.
 - Denote these data in a diagram. (i)
 - Prove that (a) Dy = Bx(ii)

- (d) AB is produced to E such that AB = BE prove that BDCE is a parallelogram.
- Factorise $8x^2 42x 11$ (i) 06
 - Solve the equation $8x^2 42x 11 = 0$ (ii)
 - Simplify $\frac{5}{4x+3} + \frac{3}{2x-1} \frac{1}{2}$ (iii)
- Chandrasiri obtains a loan of Rs. 240000 under 15% simple interest per year. (a) 07
 - Calculate the interest he has to pay for the year. (i)
 - Calculate the interest he has to pay for three years. (ii)
 - What is the amount he has to pay to get released from the loan after three years.
 - Nimali pays Rs. 4500 for a quater as the assessment tax for his property to the Ppradesiya Sabha. If the assesed value of the property is Rs. 1200000 (b)
 - Find the amount of assessment tax to be paid for a year. (1)
 - Find the percentage of the assessment rate charged by this Pradesiya (ii) kalvi.lk Sabha.

ONLINE CLASSES - 2025. VEV ADMISSIONS

2ம் தவணை வகுப்புகள்

தரம் 6 முதல் O/L வரை

அனைத்து பாடங்களும் ஒரே கல்வி நிறுவனத்தின் கீழ் ...
