D	More than 30

3) If you are a healthy person, in which category will you come under?

1. A 2. B 3. C 4. D

❖ Based on the following table, answer the 3rd, 4th and 5th questions.

Name	Body mass index (BMI)
A	Less than 18.5
B	18.5 – 24.9
C	25 – 29.9
D	More than 30

4) Who is the one faces the issues because of consuming the over nutritional foods (fat, carbohydrate, and salt)?

1. A 2. B 3. C 4. C

❖ Based on the following table, answer the 3rd, 4th and 5th questions.

Name	Body mass index (BMI)
A	Less than 18.5
B	18.5 – 24.9
C	25 – 29.9
D	More than 30

5) In the above table, who is skinny and has under nutrition?

1. A 2. B 3. C 4. D

- 3) Goal shooter
- 4) Wing defender

12. A pattern of baton changing within the two relayplayer is shown in the following diagram.

Choose the correct pattern of baton changing is shown below,

1. Diagram B only.
2. DiagramA only.
3. Diagrams A and B.
4. None of the both diagrams A and B.

Data and the Answer the questions 13, 14 apod15 and 16 with using the data and the pictures given below Diagrams of court and the field events are given below. It is your duty to distribute proper equipments and the sending the proper players to a particular court.

13. Which event of the players are sent to the ground D

- 1) High jump
- 2) Pole vault.
- 3) Long jump
- 4) Javelin throw

14. The equipments needed for the courts A and C. respectively, are.

- 1) put shot, discus
- 2) Putshot, Javelin
- 3) Discus, Javelin
- 4) Javelin, discus.

15. To which court you send the players for discus throw
- 1) A 2) B 3) C 4) D
16. In which court a line with thickness as 7cm is used.
- 1) D 2) C 3) A 4) B.
17. Scientific basis used by the cricket player when catch the ball comes towards him
- 1) Force 2) Centre of gravity
3) Momentum 4) moment of inertia
- 18) The national organization which put forwards the concepts related with health
- 1) National Finance organization. 2) World health organization.
3) Unisexual organization. 4) Red Cross society
19. Natoma Factor which leads maintained equilibrium during postura
- 1) is, being a centre of gravity
2) Being feet apart as broad
3) Action of organs in the opposite directions
4) Bending the body towards force come from outside
20. Name of the liquid having yellow colour found in breast milk, is
- 1) Oestrogen 2) Colostrum.
3) Progesterone 4) Testosterone
21. The factor preplan to be considered when outdoor activities are planned and conducted is,
- 1) Preplan 2) Implementing 3) End 4) All the above
- 22) The average weight of a volleyball is
- 1) 300 - 500g 2) 260g - 280g 3) 400-400g 4) 4200 - 300g
- 23) By how many kilograms does the weight of a conceived mother increase?
- 1) 7.5kg 2) 9kg 3) 10kg 4) 12kg.
24. The main steps of triple jump respectively are,

- 1) hopping, than karaht take off jumping
 - 2) Jumping, take off, hopping
 - 3) take off, hopping jumping
 - 4) hopping Jumping, take offe
- 25) Meera doesn't skip drinking plain tea as soon as having meal. Through this habit, which nutrient affects her nutrition?
- 1) Iodine 2) vitamin 3) Vitamin 4) Iron.
- 26) Which system protects body organs and gives a good pattern to body?
- 1) Respiratory system 2) nervous system
 - 3) Skeletal system 4) muscular system
- 27) Why are rules and regulations of games important?
- 1) To conduct a fair competition
 - 2) To save from accidents
 - 3) To maintain dignity of games
 - 4) To get all the above
28. Thulasi who were practicing felt headache, Increased over tiredness, over Sweating blood circulation and thirsts Giddiness
- 1) Dehydration 2) Gridhtona 3) Ane fainting 4) heart problem
- 29) By participating in the keep fit activity in schools
- 1) There will be physical development
 - 2) Ensures happiness
 - 3) Ensures happiness according to rhythm le.
 - 4) All the above
30. The condition caused due to insufficient iodine
1. That 2) Tiredness 3) decrease in growth 4) Fall ill
31. The disease related to the food pipe is,
- 1) Mumps 2) Hypertension 3) Thrombosis. 4) Enlarged genital

32. Which of the following indiscipline activities that Cause the exit from soccer?

- 1) Breaking the current rules and regulations.
- 2) Delaying the resumption of play
- 3) Leaving field without order intentionally
- 4) Raising both hands for

35. The first aid method used in the indoor accidents is

- 1) RICE method
- 2) A, B, C, D, E method
- 3) PRICES method
- 4) RICES method

36.

The Information shown in the diagram

- 1) Railway signals
- 2) Signals used when
- 3) Related Marathon race bearnabas coast
- 4) Related walking competition

37. The child Hawn called as "prematured during the birth.

- 1) Children weighs less than 3.5kg,
- 2) Children weighs less than 3kg
- 3) Children weighs less than 4kg
- 4) Children weighs less than 2.5kg

38) The content of to be fat found in a healthy persona

- 1) 20y - 25y
- 2) 15y - 20y
- 3) 25y - 30y
- 4) 30y - 35y

39. The year in which the ancient Olympic games. Were started

- 1) 1896
- 2) 776
- 3) 785
- 4) 1890.

40) The Virus that is threatening the world now is

- 1) Dengue 2) Corona 3) Malaria 4) AIDS)

Part II

1) Kamal is studying in grade 11, who has physical and mental changes according to adolescent stage. He has age appropriate body weight and height. And his BMI range was found to be normal. He engages in activities such as Daily Exercise, Yoga for his better health. As well as engage in organized games such as Football with 7 Students team for entertainment in the evening.
