- v.

5. Read the given paragraph and answer the questions below.

Thomas Alva Edison was a famous inventor who lived in America. He was born in Ohio in 1847. As a little boy he was very inquisitive, and always wanted to know how things were done. In 1869 he went to New York where he worked for some time but he gave up his work as he wanted to conduct experiments and invent things. He built a laboratory at Menlo Park. There he did his experiments and invented many useful things. One of his most useful inventions was the Electric light Bulb, another was the Phonograph. It is said that he invented thousands of things. Therefore he was called "The Wizard of Menlo Park".

Edison died in 1931.

Listening passage

There are several National parks in Sri Lanka. An national park is a protected forest area. Here, birds and animals can live freely. The two most famous national parks are Yala and Wilpattu. Many wild animals like elephants, leopards, monkeys, bears, sambur, and deer live in them. Kumana is the national park for birds. Birds such as peacocks, storks, hornbills, woodpeckers and kingfishers are found there. A national park is also called a Game Sanctuary.
