 (iii) beef liver, potatoes, dhal, bringals, chilli
 (iv) rice, fish, eggs, beans, peanut
- 05) Keep the head straight, lower the trunk bending the kness, make the standing base wider by keping the legs at a little distant. These are included,
 (i) in the correct posture of sitting
 (ii) in the correct posture of lying
 (iii) in the correct posture of lifting a weight
 (iv) in the correct posture of running

The figure shows a part of a system of the human body. Answer the question 6, 7 & 8 using the given figure.

- 06) According to the figure A, B, C shows respectively,
- stomach, deudenum, pancrease
 - stomach, liver, deudenum
 - liver, stomach, deudenum
 - liver, stomach, oesophagus
- 07) A disease related to this system is,
- bronchitis
 - Leukemia
 - Arthritis
 - gastritis
- 08) The best way for the proper maintenance of this system is,
- taking food with fibres
 - taking more food containing chilli & oil
 - living in a clean environment
 - Prevent from the mental stress
- 09) Out of the following phrases, the best suitable phrase to fill the blank is,

- Qualification factors related with talents
- Qualification factors related with health
- Motor skills
- Hidden tallents

- 10) Giving an opportunity to make the student and their families healthy & to be strengthen with necessary skills to get the maximum use of education is,
- (i) Health promotion
 - (ii) Vision of health promotion
 - (iii) Mission of health promotion
 - (iv) Strategies of health promotion
- 11) "Supplying health facilities in a school is a must." Which example does not match with the above statement.

- 25) Hurdling is a fast and rhythmic technically activity and is a very interesting one of the running event of atheltics. The hurdling events for Men's are,

- (i) 100 m - 400 m
- (ii) 100 m - 110 m
- (iii) 100 m - 200 m
- (iv) 110 m - 400 m

- 26) The correct measurement related to changing zone of the relay race is,

- (i) Free zone is 10 m distance of the changing zone is 10 m.
- (ii) Free zone is 10 m, distance of the chaging zone is 20 m.
- (iii) Free zone is 20 m, distance of the chaging zone is 10 m.
- (iv) Free zone is 20 m, distance of the changing zone is 20 m.

- 27) Not an advantage / use of climbing mountains,
- understanding about the bio-diversity
 - gaining of fun & knowledge
 - understanding about organizing & forest land.
 - development of physical fitness.

Following represents some data of & students having nutrient deficiencies. Using them answer the questions from 28 to 30.

Student	Deficiency
A	Vitamin A
B	Iodine
C	Iron

- 28) Which student suffers from Anaemia,
- A
 - B
 - C
 - A, B & C
- 29) According to given data, which one is assumed to have goitre,
- A
 - B
 - A & B
 - B & C
- 30) One of those students is suffering from the night blindness. The letter used for him is,
- A
 - B
 - C
 - A & B
- 31) Select the correct statement regarding 'Liberio',
- Liberio can be the captain
 - Liberio can prevent an attack
 - Liberio can after the ball.
 - Liberio can substitute any times.

32)

The figure shows,

- A state of a technique in high jump
 - A state of hurdles
 - A state of gymnastic
 - A state of pole-vault
- 33) Following shows the four stages of linear technique of shot put. Which is the correct order, that should follow.
- Ready position, release stage, gliding backward, post stage
 - Gliding backward, ready position, release stage, post stage.
 - Gliding backward, release stage, post stage, ready position.
 - Ready position, gliding backward, release stage, post stage.

- 34) Tosoe is desribed as,
- Only head
 - Head, hands and part of the hoby.
 - Head, neck, the body without legs and hands
 - Head, neck, the body with legs and hands.
- 35) Not a factor for leaving a sportman from foot ball match,
- bad words were used twice.
 - Destructive feelings.
 - Pushes an opponent
 - Spits at an opponent
- 36) Not a factor effect for competency level of jumping event,
- Floating speed
 - Releasing angle
 - Floating height
 - Floating angle
- 37) The game which is held with water jumps and hurdles,
- Steaple chess
 - Cross country
 - decathelon
 - 400 m - hurdles
- 38) Not a factor effect for maintaining the balance of the body,
- centre of gravity is below the standing base.
 - standing base increases.
 - Decreasing the height to the centre of gravity from the ground.
 - Centre of gravity is above the standing base.
- 39) Two groups of students are palying a game happliiy according to the rules which were made by themselves this is,
- an organized game
 - an indoor game
 - a sub sport
 - a minor game
- 40) The more responsibility in preventing the dengue disease is towards,
- doctors
 - health officers
 - All the public
 - social service officers

(20 x 2 = 40 mark
