**Test 13.** Read the passage and answer the questions given below .

(2X5=10 Marks)

A robot is an artificial agent, meaning it acts as a substitute for a person, doing things it is designed for. Robots are usually controlled by a computer program or electronic circuitry.

They may be directly controlled by humans. They may be designed to look like humans, in which case their behavior may suggest intelligence or thought. Most robots do a specific job, and they do not look like humans. They can come in many forms.

In fiction, however, robots usually look like people, and seem to have a life of their own.

There are many books, movies, and video games with robots. Isaac Asimov's is the most famous robot . People show interest in building robots to do work for us for a long time.

But it takes time and money to build just one machine..

1. What is a robot?

.....

2. Who directly controls the robot?

.....

3. In which ways the robots are usually controlled?

.....

4. What is the name of the most famous robot mentioned here?

.....

5. Why do people show interest in building robots?

.....

**Test 14.** Write on anyone the following topics. Use about 75 words

(10 Marks)

1. The institution where you continue your studies.
2. A person you like most.
